Giveaway! Natural Skincare

brettknowsbeauty.blogspot.com

I've got a treat for you! Since we began talking about natural and organic skin care and cosmetics products, you have shared with me that you're interested in taking a more natural approach to skin - and I couldn't agree more. While Earth month is still a ways away, we can celebrate now!

The great people from **Aurora DeJuliis M.D. European Medical Spa** came to me with a generous offer. I'm so excited to share this with you!

From puffy skin to dark circles under your eyes, your skin needs to recover, rejuvenate and refresh. Get some beauty sleep with Aurora DeJuliis, MD's Retinol Night Crème, a unique encapsulated retinol delivery system that provides maximum release with reduced irritation typically associated with retinoids. Retinol diminishes the appearance of fine lines and deep wrinkles by stimulating collagen production and cell regeneration, which enhances skin tone and texture and reduces the appearance of discolorations, age spots, and occasional blemishes. \$59.00

Given how much we enjoy our daily dose of caffeine via a steaming-hot cup of tea, it's only natural that we'd gravitate towards a skincare regimen with the same awakening effect. Boasting a range of skincare benefits, Aurora DeJuliis, MD's Chamomile Cleanser is quickly becoming a beauty bag staple. Infused with chamomile, vitamins A and E, this gentle cleanser provides moisture absorption and retention properties as well as its antioxidant quality. Harsh environmental conditions with pollutants or irritated skin conditions can be soothed by this rebalancing cleanser. \$35.00
